TESCO mobile

Helping you spend less on calls, texts & phones Every little helps

Mobile phones, the Tesco way...

You've probably noticed that we've been selling mobiles in our stores. What you may not have noticed is that we now have our own mobile network, Tesco Mobile...

We've teamed up with O2 so you can have all the advantages of a big network combined with the good value and simplicity you expect from Tesco.

- Easy to budget with our simple, flat rate, prepay tariff

We don't want you to have to worry about when you call your friends so we charge you one rate anytime – day or night.

- Half price calls and texts to your 3 favourite numbers – mobile or fixed line

We know you speak to some people more than you speak to others and we charge you less for these calls.

- We don't charge you more to keep in touch with your friends on other UK networks

- Easy to top-up from one of the 60,000 outlets around the country where you see this sign

- You can keep your existing number

- So you won't waste hours telling everyone your new one.

- Double Clubcard Points when you top-up at Tesco

So, how much will your calls cost?

Your 3 favourite numbers

Calls (standard UK mobile or fixed line numbers)	10p (per min)
Text message (standard UK mobile numbers)	5p (per msg)

Other calls & texts

All other calls to anyone, any time of the day or night (standard UK mobile or fixed line numbers)	20p (per min)
Text message to a standard UK mobile	10p (per msg)

Picture messages (MMS)

Picture message to a standard UK mobile	25p (per msg)
-----------------------------------------	---------------

Other charges

Voicemail	10p per minute
International text message (from the UK)	20p per text
Mobile internet calls	10p per minute
Downloads from mobile internet	£4 per Mb
Minimum call charge	5p
Directory enquiries	from 50p per call/min
Customer care line	20p per minute
Premium rate calls	from 50p per call
International calls (from the UK)	from 89p per call

So, what phones do we have?

When we asked customers what they wanted from a mobile phone, it was no surprise to find people wanted different things. That's why we've got a variety of phones so you can choose the right one for you. If you're happy with your existing phone but want to move to Tesco Mobile you can buy a SIM only pack*.

*Your current provider may charge to unlock your phone.

Siemens A52

Great value, easy-to-use phone with 2 built-in games

- Key features:**

The terms and conditions...

NOTE: Tesco home phone minimum call charge of 5p per call - does not apply to free calls or Talk 1 evenings and weekends, local and national calls. All prices inclusive of VAT. All Tesco and BT call charges stated exclude calls to mobiles, premium rate numbers, international destinations, directory enquiries, all non-voice calls (including internet), non-geographic numbers, e.g. 0845, 0870 and any promotional offers or discount packages. For all Tesco home phone and BT tariffs shown you will need to pay BT line rental. To view a complete price list and full terms and conditions please visit www.tesco.com. Daytime means 8am to 6pm Monday to Friday. Evening means 6pm to 8am Monday to Friday. Weekend means midnight Friday to midnight Sunday. Tesco prices correct as of 1/10/05. BT charges checked online and correct as of 09/05/05. Prices subject to change.

Helping you spend less on home phone calls

Every little helps

Why Tesco does home phone

We are able to buy big chunks of calltime at wholesale prices. This is a lot cheaper than the price you'd normally pay, so we're able to pass the saving on to you.

Simple and easy! We've tried to make it as simple as everything else we do. All you have to do is call us, or click online to apply and we'll do the rest.

- It's simple to use – you don't need a box, a new line or a new phone.
- You will continue to pay BT for your line rental as you are still using their lines.
- You keep your number and you'll still have all the services you normally get from BT like 1471, 1571 and call waiting.
- You can still use the internet and you don't need to change your ISP.
- Now, a little bad news for those of you with a cable telephone line. We're sorry, but you won't be able to receive Tesco home phone as you need a BT land line.

What are the next steps after applying?

Step 1 We'll send you a letter confirming your application is being processed and set up a Direct Debit

Step 2 You will receive a letter from your current call provider confirming your switch to Tesco home phone

Step 3 You'll get a letter informing you of the date your service will start

It's that simple!

What will it cost you?

We have three tariffs to choose from:

Talk 1 – Pay as you go

If you don't use your phone very often, then this will work for you. There is no minimum monthly payment, you just pay for what you use.

- **2.5p** per minute during the day (unlike some other companies when we say daytime, we mean daytime. So our daytime is from 8am – 6pm).
- **4.5p** per call evenings and weekends (we know that this is when you've got time to chat, so we won't limit the time you spend on your call).

(BT daytime rate is 3p per minute. Evenings and weekends 5.5p for a 60 minute call).

Talk 2 – Evenings and weekends

If you work during the day and you're mostly at home on evenings and weekends, then we'd recommend Talk 2.

- **£4.47** per month means free evening and weekend calls to UK land lines (and 2.5p per minute during the day to UK land lines) with no call limits.

(BT charge £6.00 per month and have a 60 minute limit on your calls).

Talk 3 – Anytime

If you work from home, or spend a lot of time on the phone during the day as well as evenings or weekends, then we'd suggest Talk 3.

- **£11.97** per month means that you can call any UK land line, anytime, free for as long as you want – again, there are no limits!

(BT charge £15.00 per month and have a 60 minute limit on the amount of time you spend on calls). See back page for terms and conditions.

What our tariffs include?

- **FREE** calls to other Tesco home phone customers. It's a win-win situation. The more friends you can switch to us, the cheaper your calls, and the more customers we have.
- **FREE** directory enquiries from a registered Tesco home phone. Just call 118 321.
- **FREE** Customer Service line 0800 068 0818.
- **And we'll throw in Clubcard Points for every £1 you spend for good measure.**
- **Also, you can check your bills online so you're never out of touch with your account.**

What they don't include...

We don't believe in hidden costs. Well, we want you to stick around, so it doesn't help us if there are nasty surprises in your phone bill.

Calls to mobiles

This is a bit of a minefield at the moment. Tariffs are constantly changing and differ depending on which network you call. To keep it simple, our rates to UK mobiles will be 5% lower than BT.

International calls

Calling your auntie in Australia, or your uncle in the USA, costs us more than when you make a local call. So it's only fair that we charge you a bit more...but not a lot. We only charge 4p per minute to the 15 most popular countries.

Dial-up internet calls

To be honest, most internet calls are not covered by your free minutes as they start with 0845 or 0870.

No hidden costs

How much will you save?

Go online at **www.tesco.com** to take part in the home phone challenge.

An independent (yes, totally independent) calculator by **tariffcom** will show you how much you will save. So if you don't believe us, you'll hopefully believe them!

What you need to do to switch...

All you will need to do is two simple things:

1. Have a UK bank account
2. Call us free on 0800 068 0818* or go online at **www.tesco.com** to apply

Once you've applied it will take up to 3 weeks to move to us. We'd love to be able to switch you over the very next day, but it takes a while for us to confirm your bank details and to cancel your existing service with BT. We'll try to make it happen as fast as possible and will keep you up to speed with what's happening. And you can be assured that, during this time, your phone service will be unaffected.

*Calls may be recorded and are free from BT land lines, calls from mobiles and other fixed line networks may vary.

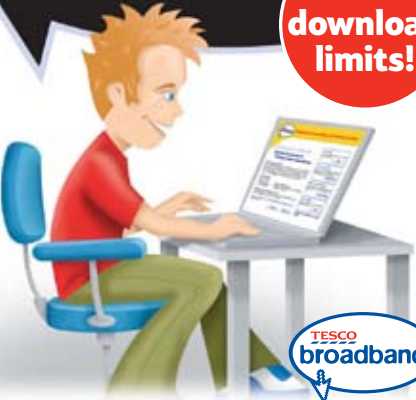

TESCO

FREE disc inside

broadband

512k

NO download limits!

TESCO broadband

Helping you spend less on internet access

Every little helps

Why would you want Tesco broadband?

For our latest prices visit www.tesco.com

We all know how frustratingly slow the internet can be, so why not try broadband instead? With a 512k connection you can surf up to 10 times faster than with a standard dial up connection. There's no dial-up, so you're always connected, day and night, all for the same price. And for those of you who like to surf and chat, don't worry, you can be on the internet at the same time as the phone. We also don't limit how much you can download, after all there are no limits on the amount of times you can visit our stores.

So how do you sign up?

To sign up there are just 3 things you'll need:

- A BT line
- A PC or Mac with a CD drive
(Please check the minimum requirements on the front of the enclosed CD to make sure your computer is compatible with Tesco broadband)
- A debit or credit card

Then all you need to do is go to www.tesco.com and apply, or simply use the free registration disc in this pack.

If you are an existing Tesco internet dial-up customer you can apply for Tesco broadband by logging into 'your account' through www.tesco.net and selecting the 'change your package' option.

Look inside for your FREE registration disc

How long does it take?

It usually takes about 3 weeks to activate your broadband service. We'd love it always to be this fast, but sometimes so many people apply in one area that we have to ask BT Wholesale to give us more capacity at the local telephone exchange. We'll do our very best to make this happen as quickly as possible.

Once all the checks have been completed we'll send you your free broadband modem so you can get started. We'll also send you 2 broadband filters so you can use the internet and your home phone at the same time.

We know that you'll be eager to get surfing, so we'll keep you informed of the progress of your application every step of the way.

So, how much is it going to cost?

One price per month and that's it! For our latest price go online at www.tesco.com or pick up a price list in store. With Tesco broadband there are no hidden extras – after all, no one likes them and it's in our interest to make you happy.

In most cases we really try not to tie you into a contract. However, as we have high set up costs for broadband we do have a 12 month minimum contract. If you do decide to cancel within the first 12 months, there is a cancellation fee of £70 or the remainder of your contract term (whichever is the smaller amount).

Some peace of mind...

If you want to make sure your computer is safe, you can also choose to get our top of the range Tesco internet security. It will help protect your computer against viruses & hackers and keep that irritating 'spam' to a minimum. It also protects your kids against unsuitable internet content. For the latest price visit www.tesco.com or pick up a price list in store.

Any other questions?

3 great low cost packages to choose from

TESCO internet dial-up

Helping you spend less on internet access

Every little helps

Simply great value internet

For our latest prices visit www.tesco.com

Getting started on the internet can seem like a minefield. There are so many different companies offering so many different tariffs, it can all seem a bit mind boggling. That's why we've made the whole thing – from choosing a package to getting started – as simple as possible.

And because we're Tesco, the prices are what you've come to expect from us too. Well, we don't want you going anywhere else for your internet any more than we want you going anywhere else for your shopping.

Different people, different packages

When we asked our customers when they tend to use the internet, it was no surprise to find out we got different answers! That's why we've created three different packages, each designed to give you the best possible value for the way you use the internet. You can see each package at a glance opposite, but for more details and the latest prices, visit us online at www.tesco.com or pick up a price list in store.

How to get started

- All you need to get started is a residential BT phone line, a PC or Mac with a CD drive and the disc in this pack.
- Before you start, you can see whether your computer is compatible by checking the minimum specification requirements on the face of the enclosed disc.
- Just insert the enclosed disc into your computer. Everything you need to know about applying is on the disc – just follow the instructions.

Look inside for your **FREE registration disc**

Choose what's right for you

You can choose from three great low cost packages, depending on when – and how much – you want to use the internet.

anytime

Internet access as often as you want, for a flat monthly fee. Perfect if you want to use the internet a lot and at any time of day or night.

daytime

For a lower monthly fee, you get internet access during the day between 2am and 4pm. Plus you can still go online at any other time for a flat charge per minute.

pay as you go

No monthly fee – you just pay for the time you spend online. Ideal if you only use the internet occasionally.

Tesco broadband – fast internet with no limits

If you want a faster connection and like the idea of using your phone while you're online, Tesco broadband could be for you. It's up to ten times faster than standard dial-up connections and there's no limit to how long you spend online or how much you download. You can sign up to Tesco broadband using the disc in this pack.

Tesco internet security

When you register for Tesco internet access, we'll ask if you'd like to add our top of the range Tesco internet security to your package. It helps protect your computer against viruses and hackers and helps keep your email clear of spam. It also helps protect your children against unsuitable internet content. For the latest price visit www.tesco.com or pick up a price list in store.

Any other questions?

Your questions answered...

Q: Why can't I get scratch-off airtime vouchers anymore?
A: Scratch-off airtime vouchers are being phased out by most networks. Please contact your network provider if you require further information.

Q: What are E Vouchers and who uses them?
A: E Vouchers are printed through the till point, which means they are ideal if purchasing credit as a gift. It is still necessary to contact the network provider to apply the credit to the phone.

Ideal for customers who prefer to purchase credit in voucher form and those who have forgotten or cannot get access to an E Top-up card

Q: What are E Top-ups and who uses them?
A: E Top-ups are cards that can be used to apply credit directly to your mobile phone. The credit is purchased at the till and applied to the E Top-up card. By the time you've paid, the credit has been transferred through the E Top-up card and onto your phone ready to use. Even if you lose your card, you can simply pick up another one from the store (except Virgin Mobile customers).

Ideal for customers who want a quick and easy way to add credit to their phones

Q: What is the difference between E Vouchers and E Top-up? Surely they are the same?

A: E Top-up applies the airtime credit you have purchased directly to your phone. E Voucher is like a normal top-up card but just printed at the checkout. You still need to contact your network provider to get the E Voucher credit applied to your phone.

Q: Can I have more than one E Top-up card linked to my phone?

A: Most networks will allow up to 6 E Top-up cards to be linked to 1 mobile number. This also means that you can give cards to other people, so they can top-up for you when you can't.

Q: Why can't I purchase an E Voucher for my Orange phone?
A: Currently, Orange do not offer this service to their customers.

Q: Why can't I purchase E Top-up for my 3 phone?
A: Currently, 3 do not offer this service to their customers.

Q: What is a 3 'Add-on'?
A: A 3 network 'Add-on' offers a great range of services. For further information call 3 customer centre on 0870 330 333.

Don't forget...

...you earn
Clubcard Points
 for every £1 you

mobile top-up

**Different ways to
 top-up your
 mobile phone**

pay as you go

Option 1:

E Vouchers

(replacing scratch-off airtime vouchers)

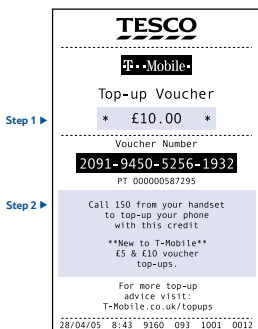

**Introducing another easy
 way to top-up your phone**

Tell the checkout operator which network provider you use and how much you want to top-up. You will then be handed a receipt.

Step 1: The receipt shows the chosen credit value and a unique Pin Number/Voucher Number (see example below).

Step 2: Call your network and follow the simple instructions to top-up your phone.

The Serial Number/PIN Number is for network use only.

Sample receipt - For illustrative purposes only

Option 2:

E Top-up your phone quicker

Electronic Top-up

Step 1: Link your E Top-up card (available in store*) by simply following the relevant network instructions below.

Step 2: Hand your E Top-up card over at the checkout and request the amount of credit you wish to add to your phone.

The cashier will swipe your E Top-up card and your new airtime should be available in minutes.

Link the swipe card to your handset once by dialling 282 (you can keep it for future purchases).

Link the swipe card to your handset once by dialling 248 (you can keep it for future purchases).

Link the swipe card to your handset once by dialling 2345 (you can keep it for future purchases). You can top-up before or after linking your card.

Link the swipe card to your handset once by dialling 450 (you can keep it for future purchases).

Link the swipe card to your handset once by dialling 150 (you can keep it for future purchases).

Dial 789 to register for an E Top-up card and Virgin Mobile will send a card directly to you. Swipe cards are not available in store.

*Except Virgin Mobile customers who need to request a top-up card from Virgin Mobile. Excludes Isle of Man.

Broadband – fast internet with NO LIMITS

If you want a faster connection and like the idea of using your phone while you're online, Tesco broadband could be for you. It's up to ten times faster than standard dial-up connections and unlike many other broadband providers there's no limit to how long you spend online or how much you download. In fact, analysis of our current customers has shown that if we had a 1Gb download limit then over 40% of our customers would have exceeded it.

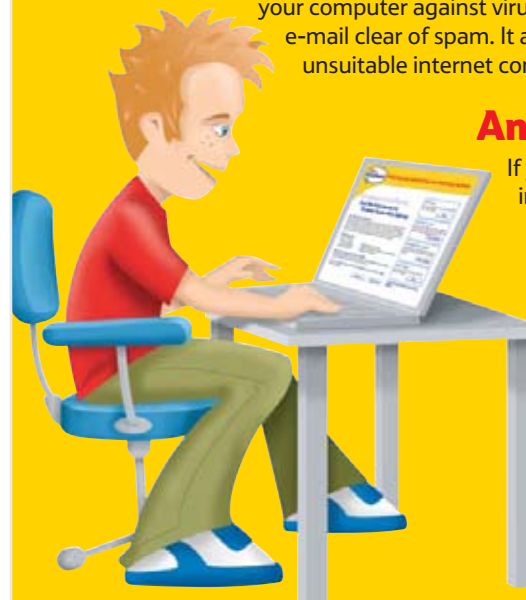

Dial-up internet access

Whether you're a constant web surfer, a frequent internet shopper or just like to keep in touch with e-mails, we have the option of 3 low cost price plans so you're bound to find one that will fit your needs.

It's quick and easy to apply and each package comes with multiple e-mail addresses, access to webmail and personal web space. And you can earn Clubcard Points too!

Internet Security

When you register for any Tesco internet access package, we'll ask if you'd like to add our top of the range Tesco internet security to your package. It helps protect your computer against viruses and hackers and helps keep your e-mail clear of spam. It also helps protect your children against unsuitable internet content.

Any other questions?

If you'd like to know more about Tesco internet access packages simply visit www.tesco.com
